DELTA METHRIN GROUP 3A INSECTICIDE

Gravista[®] Insecticide

Combination insect growth regulator, synergist and adulticide

PROTECTS STORED GRAINS, SEEDS, GRAIN BINS AND WAREHOUSES (INDOOR AND PERIMETER TREATMENTS) AGAINST DAMAGE FROM INDIAN MEAL MOTH, SAWTOOTHED GRAIN BEETLE, RED FLOUR BEETLE, RICE WEEVIL, MAIZE WEEVIL, AND OTHER LISTED PESTS

- Three-way insect control
- For use on grain, empty bin and perimeter treatment
- Long residual control
- Kills listed adult insects and exposed larvae
- May be diluted with water or oil
- Miscible in dust-controlling oils

ACTIVE INGREDIENTS:

Deltamethrin	1.20%
Piperonyl butoxide	33.30%
S-Methoprene	2.85%
OTHER INGREDIENTS	62.65%

PROBLEM

Rice Weevil

Lesser Grain Borer

Red Flour Beetle

Indian Meal Moth

Sawtoothed Grain Beetle

Confused Flour Beetle

Granary Weevil

Grain Weevil Life Cycle

WEEVIL DAMAGE BENEATH THE SURFACE

Because of the way weevils transform from an egg to an adult isolated inside the grain kernel, they can be a difficult insect to see and control.

Once you see insects, damage is already done. Don't wait, prevent with Gravista® Insecticide Quart.

SOLUTION

Protect your post-harvest grains and prevent insects from damaging your investment with Gravista® Insecticide Quart.

Approved for both pre-bin and post-harvest grain treatment, Gravista® Insecticide products are ideal tools to make every kernel count in the fight against profit-robbing insects.

- No tank mixing
- Combines a synergized adulticide with an insect growth regulator
- Non-restricted use
- Residual control
- Application to the grain stream and/or as an empty-bin treatment
- CODEX approved for cereal grains

Available in QT and 2.5 gal

WHY TREAT BINS AND GRAINS?

Lingering insects can infiltrate stored grain.

- Clean and repair storage facilities to maintain sanitation, as hidden insects and eggs may still persist.
- Without treatment, they'll quickly reinfest your new grain.
- Rotate bin chemistry to prevent insect resistance, similar to how you do in your field.
- Our grain protection solutions can also be applied to the grain stream to provide a crucial layer of protection against profit-robbing insects.

Our proven products have been protecting commercial grain from insects for years. Now we're bringing that expertise directly to the farmer. Gravista® Insecticide Quart can help:

- ✓ Reduce shrink due to uncontrolled insect damage
- ✓ Reduce grain dockages and IDK (insect damaged kernels) by up to 18%,* resulting in higher profitability
- ✓ Improve your bottom line by controlling these insects and the damage they cause
