

NEW GRAVISTA[®] INSECTICIDE QUART SIZE

A NEW TOOL FOR PRE-BIN AND ON-GRAIN POST HARVEST INSECT CONTROL

Gravista[®] Insecticide offers a superior rotation option for pre-bin treatments and on-grain protection.

Featuring 3-in-1 insect control with an adulticide, an insect growth regulator (IGR) and a synergist, Gravista[®] Insecticide kills labeled insects and breaks their life cycles. Gravista[®] Insecticide is designed to help you combat insect infestations from pre-bin to post-harvest storage.

FEATURES

- Three active ingredients – Deltamethrin, (S)-methoprene, Piperonyl Butoxide
- Long-term residual control
- On-grain, empty-bin and perimeter* treatment
- For use on wheat, corn, rice, and other labeled grains and seeds
- Water, oil, and dust-controlling oils dilutable formulation
- CODEX approved for cereal grains

BENEFITS

- 3-in-1 combination eliminates labor intensive tank-mixing
- Effective on tough-to-control stored product insect pests
- **Convenient quart size** to make pre-bin applications and small-scale treatments more convenient
- Reduced infestation rebound and subsequent costly retreatments
- Available in two sizes (QT and 2.5 Gal)

ACTIVE INGREDIENTS

- Deltamethrin 1.20%
- Piperonyl Butoxide 33.30%
- (S)-Methoprene 2.85%

TARGET INSECTS

Indian meal moth, sawtoothed grain beetle, red flour beetle, rice weevil, maize weevil, lesser grain borer, and other pests (see label).

APPLICATION METHODS

- Apply directly to grain stream
- Apply as empty-bin treatment
- Apply as a surface, spot, and crack-and-crevice treatment both inside and outside of bins
- Refer to label for application rates

TREAT THE BIN, PREVENT STORED GRAIN INSECTS

Rice Weevil

Lesser Grain Borer

Red Flour Beetle

Indian Meal Moth

Sawtoothed Grain Beetle

Confused Flour Beetle

Granary Weevil

MAKING EVERY KERNEL COUNT STARTS WITH PRE-BIN APPLICATION:

- No tank mixing and now available in convenient QT size
- Your customers need to rotate bin chemistry just like their field chemistry
- Offers two active ingredients + a synergist for superior pre-bin control
